## DNA Xtra.....Xtra useful for cold cases.

DNA Xtra is the new low template DNA system from Key Forensic Services which is ideally suited to assist with the investigation of cold cases.

DNA Xtra provides the investigator with a significant increase in the likelihood of obtaining a useful DNA profile from extremely small amounts of cellular material and greater evidential value of results –inconclusive results are identified at an early stage.

Stringent interpretation guidelines provide resilience if results are challenged in court.

Success rates associated with DNA Xtra represent a marked improvement and are extremely competitive with the best in the industry.

For a limited time only\* we are able to offer exceptional rates on the DNA Xtra Cold Case Service –Please contact our sales team for details. Tel **02476 323399**.

The DNA Xtra system is fully CAS and UKAS accredited.

\*Offer available until 30th September 2009. DNA Xtra is provided by Forensic DNA Services Ltd.

Key Forensic Services Ltd., UWSP, Sir William Lyons Road, Coventry CV4 7EZ.
