

Right People. Delivering Results.

Experienced scientists delivering forensic effectiveness, unquestionable integrity, focused customer service and value for money.

Key Forensic
Services Limited

Key Forensic Services

Key Forensic Services is an established, approved forensic service provider and offers a comprehensive range of forensic services, plus bespoke training and consultancy.

Our goals are achieved by fully understanding the dynamics of the forensic marketplace, our customers' requirements and the need to provide forensic effectiveness, unquestionable integrity and value for money.

We work for the police forces of England and Wales, plus other law enforcement agencies and commercial organisations. We also work with overseas governments and police forces.

Our Laboratories

We have operational sites in **Coventry (HQ), Warrington** and **Norwich**.

All locations provide excellent laboratory accommodation, expansion capability and 24/7 security.

We operate a secure logistics service for the collection and delivery of forensic submissions and the transfer of work between sites, ensuring workflow is seamless and efficient.

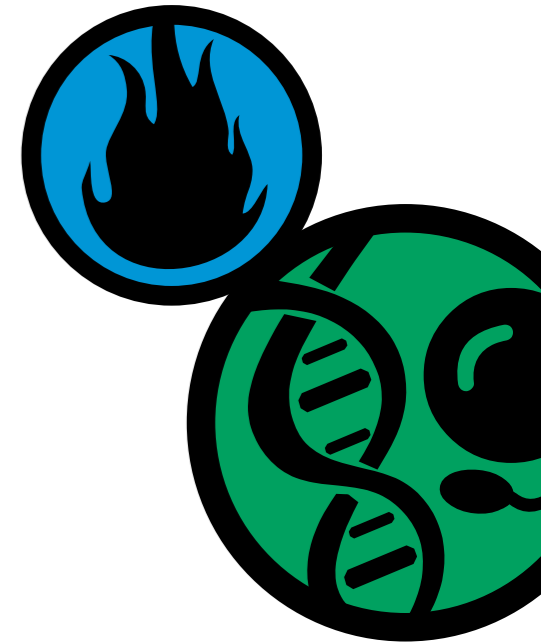

We have invested heavily in our laboratories which are equipped with state of the art technology.

Scientific Staff

We have a hugely experienced team of scientists covering all of the major forensic disciplines.

Many of our staff have over 20 years' operational experience and are experts in their field. These Reporting Managers are happy to provide information and advice direct to customers throughout the progression of a case through the laboratory.

Customer Services Team

Our team of experienced, dedicated, Customer Services professionals provides a high level of support to forensic submissions staff, from all of our operational sites.

Account Management

Our Account Management team is experienced in effective contract implementation/transition and provides customers with a single point of contact.

Our team operates a system of regular account reviews and reporting of management information.

Out of Hours Support & Scene Attendance

We operate a duty manager system to provide customers with out of hours support and to help deal with the unexpected.

We also provide a 24 hour on-call scene attendance service, ensuring that our Major Incident Teams can respond immediately to requests for assistance at the crime scene, any time, day or night.

Quality Assurance

Key Forensic has been accredited to ISO 17025 since 2007, Lab No. 4064, (see www.ukas.com for details). Customers can therefore be confident that our services are reliable and meet the standards expected by the courts.
